## PROJECTS

---

### Food Munch ([presponsive.ccbp.tech](https://presponsive.ccbp.tech))

Developed a responsive website for Food Store where users can see a list of food items, detailed information about a food item, offers

- Designed page using following HTML structure elements like li, header, article, footer elements and different bootstrap components to show different sections in the website and different bootstrap classes for responsiveness through mobile-first approach.
- Implemented product youtube videos by using bootstrap embed and model components

**Technologies used:** HTML, CSS, Bootstrap

### My Projects (My Projects Page)([projectspraveen.ccbp.tech](https://projectspraveen.ccbp.tech))

Developed a website where people like interviewers can see list of projects that a person implemented

- Designed a banner section and the project cards using different HTML block, inline elements.
- Styled the website using CSS3 properties such as background, flex, and CSS box model properties and relative units such as vh, vw, and used absolute units such as px. **Technologies used:** HTML, CSS, Bootstrap

### Todos Application ([ptodos.ccbp.tech](https://ptodos.ccbp.tech))

Developed persistent todo application with CRUD operations to track list of tasks

- Displayed list of todos with HTML list elements, styled todo list using CSS, Bootstrap

- Implemented todo crud operations by using JavaScript event listeners and updated UI dynamically by using JavaScript DOM operations.
- Used Arrays, Objects and their methods during todolist CRUD Operations, Persisted todo list state on page reloads using local storage methods.

**Technologies used:** HTML, CSS, JS, Bootstrap
